PROFESSIONAL SUMMARY

Lead SDET with 10+ years of experience driving quality strategy and test automation for product-based, customer-facing platforms across healthcare, sports, banking, and fintech. Expert in scalable automation architecture, CI/CD quality engineering, and end-to-end testing across Web, Mobile (Android and iOS), API, and Performance layers. Applies AI-assisted workflows and coding agents for test generation, refactoring, debugging, and quality checks. Mentors QA engineers, partners with Product, Engineering, and DevOps, and has reduced manual testing effort by 60–70% through automation.

CORE SKILLS

Test Automation: Selenium WebDriver, Playwright, WebDriverIO, Appium, Rest Assured, Postman

Programming Languages: Java, TypeScript, Python

Frameworks & BDD: TestNG, JUnit, Maven, Cucumber (BDD), Allure, ReportPortal, HTML Reports

CI/CD & Cloud: Jenkins, GitHub Actions, Git, GitHub, GitLab, JFrog Artifactory, Selenium Grid, BrowserStack, Sauce Labs, LambdaTest HyperExecute

API & Performance Testing: REST API Testing, API/Data Validation, Apache JMeter

Testing Types: Web, Mobile (Android/iOS), API, Performance, Regression, Smoke, Sanity, Cross-Platform

Data & Delivery: MySQL, AWS DynamoDB, Jira, Confluence, Agile, Scrum, Sprint Planning, Release Management

AI & Developer Tools: GitHub Copilot, Claude Code, Devin AI Agent, CodeGPT, IntelliCode, JetBrains AI Assistant

IDEs: IntelliJ IDEA, Eclipse, VS Code, PyCharm

PROFESSIONAL EXPERIENCE

Lead SDET / Senior Automation Test Engineer | NTT DATA Oct 2023 – Aug 2026

Clients: University Hospitals of Leicester (UHL) NHS Trust | Arsenal Football Club (AFC) | Wells Fargo

- Owned end-to-end automation strategy for Web, Mobile (Android and iOS), API, and Performance testing.
- Reduced manual testing effort by 60–70% by building scalable, reusable automation frameworks.
- Integrated automation into CI/CD pipelines using Jenkins and GitHub Actions with Allure and ReportPortal reporting.
- Implemented AI-assisted automation using GitHub Copilot, Claude Code, and Devin AI Agent, reducing manual coding effort by approximately 30%.
- Designed AI-driven workflows for test case generation, code refactoring, CI/CD quality checks, and intelligent debugging.
- Defined and executed performance testing using Apache JMeter.
- Managed Agile delivery, test planning, and defect tracking in Jira and Confluence; influenced release and risk decisions.
- Mentored QA engineers and collaborated with Product, Engineering, and DevOps teams to improve release quality.
- **UHL NHS Trust and Wells Fargo:** Developed enterprise automation frameworks using Java, Selenium WebDriver, Appium, Maven, Cucumber (BDD), Rest Assured, BrowserStack, LambdaTest HyperExecute, and JFrog Artifactory.
- **Arsenal Football Club:** Developed a WebDriverIO automation framework using TypeScript, Appium, BrowserStack, and REST API testing.

Senior QE / Automation Test Engineer | Altimetrik India Pvt Ltd (Client: Western Union) Aug 2020 – Sep 2023

- Served as automation lead for a global fintech money-transfer platform.
- Architected hybrid automation frameworks using Java, Maven, TestNG, Appium, and Cucumber.
- Executed automation on real devices and BrowserStack cloud infrastructure.
- Implemented Jenkins pipelines for parallel execution and continuous testing.
- Validated mission-critical financial transaction flows for reliability and compliance.

Automation Test Engineer | Finnovation Tech Solution Pvt Ltd (KreditBee) Aug 2019 – May 2020

- Built automation frameworks for fintech mobile applications using Java, Appium, Selenium Grid, and Cucumber.
- Executed regression suites and improved mobile test coverage.
- Performed API testing and data validation using Rest Assured, MySQL, and AWS DynamoDB.

Quality Assurance Engineer | JJ Bytes Pvt Ltd (TheStarInMe) Aug 2018 – May 2019

- Designed and implemented mobile automation frameworks using Appium and TestNG.
- Performed manual and automated testing on Android and iOS platforms.
- Worked closely with product teams to improve usability, stability, and release quality.

Manual & Automation Test Engineer | SanDisk India Device Design Centre (My Cloud Home) Aug 2016 – Jun 2018

- Tested My Cloud Home across Android, iOS, NAS, and DAS cloud storage platforms using manual and Appium automation.
- Built a custom Appium and TestNG framework integrated with Jenkins, improving regression execution and CI reporting.
- Performed cross-platform validation, TB-scale data verification, and smoke, sanity, and regression testing.
- Analyzed logs using Sumo Logic and managed defects in Jira.

Manual & Automation Test Engineer | iDisha Info Labs Pvt Ltd (Quick Ride) Jan 2015 – Jul 2016

- Conducted end-to-end testing of carpooling and taxi mobile applications.
- Tested GPS navigation, live tracking, and Google Maps integrations.
- Ensured stable, production-ready releases through thorough defect validation.

CERTIFICATIONS & TRAINING

- Generative AI 101
- API Ninja – REST Assured
- WebDriverIO with TypeScript
- Playwright (Web and API – Python)
- Performance Testing – JMeter

EDUCATION

Master of Computer Applications (MCA), Computer Science – The Oxford College of Science, Bangalore University
Bachelor of Computer Applications (BCA), Computer Science – Smt. SVK BBM BCA & BCom College, Gulbarga University

TARGET ROLES

Lead SDET | Senior SDET | QA Automation Lead | Test Automation Architect | Senior QA Automation Engineer
